This waiver is valid for the 2015/2016 Academic Year. A new waiver application must be submitted each academic year. Even though you are not enrolled in the Student Health Insurance Plan, as a registered student you are still eligible to receive services at University Health Services. Services are available at University Health Services regardless of insurance coverage, but please note UHS only bills SHIP and is unable to bill other insurance carriers.

Your Student Health Insurance waiver has been approved with the understanding that you will maintain comparable health insurance at all times during this waiver period. If your health insurance is terminated during this time, you are required to notify the Student Health Insurance Office so that the Student Health Insurance Plan can be initiated.

A random sample of applicants will be contacted via email and are required to provide a copy of their health insurance identification card or other documentation as proof of insurance. If you fail to provide documentation when asked, your approval will be cancelled, you will be enrolled in the Student Health Insurance Plan, and the appropriate fee will be billed to your student account.

The Student Health Insurance Office is continuously

learning about Health Care Reform and the Exchange metal plans. While most metal plans will meet the waiver requirements, there are some plans that do not meet the University of California waiver criteria.
